HEXA  BOOTS

All Around The World

Who is HEXABOOTS?

Your safety is our priority. Hexaboos manufactures durable and comfortable safety boots that deliver the highest quality to professionals working in every field around the world. Whether you're on a construction site, in a factory environment or on an outdoor project, Hexaboos has you covered every step of the way.

PU-TPU

EVA

PVC

Hexaboots is one of the leading brands in the industry, known for its dedication to workplace safety and employee health. Our journey began in 1967 under the name Doğan Çizme, and ever since, we have been designing ergonomic and durable boots that enhance safety across various sectors worldwide.

Our mission is to use our entrepreneurial spirit to provide globally recognized services in both local and export markets, directly contributing to our country's economy and creating new employment opportunities.

Our vision is to represent Turkey more powerfully as a key institution in our sector in the coming years, amid an emerging new global order that will make its presence felt more strongly.

All our products are manufactured in accordance with international safety standards and tested with the latest technologies.

At Hexaboots, our goal is to prioritize safety and quality in every step.

Technical Data

- **PU Upper:** The part made of polyurethane (PU) material, extending below the knee and wrapping the leg.
- **PU Sole:** The lower part of the boot made of polyurethane (PU) material, in contact with the ground.
- **Steel Toe Cap:** The steel covering placed on the front part of the boot to protect the fingers from impact, pressure, cutting and piercing parts.
- **Steel Midsole:** The steel layer inside the sole of the boot that provides protection against punctures and cuts.
- **TTPU Part:** The part made of thermoplastic polyurethane (TPU) material, which increases the durability, flexibility, slip and abrasion resistance of the boot.

- **EU Sizes:** Shoe sizes determined according to the standards of the European Union.
- **UK Sizes:** United Kingdom shoe numbers.
- **US Sizes:** United States shoe numbers.
- **Production Date:** The number in the middle indicates the year the boot was produced, and the number pointed by the end of the arrow indicates the month of production.
- **CE Label:** Label indicating that the product complies with the European Union standards.
- **Shock Absorber:** The area that provides shock absorbing properties.
- **Oil & Petrol Resistant:** Resistant to substances such as oil and petrol.
- **Antistatic:** Feature preventing the accumulation of static electricity.
